

Aleena Varghese *Full-Stack Developer*

✉ aleenatheresa024@gmail.com ☎ 9499719173 📍 Bangalore, Karnataka 🌐 Github
🌐 LinkedIn 🔗 Portfolio 📝 Medium

PROFILE

Results-driven **Full-Stack Developer** with a strong focus on **front-end engineering and user experience design**. Skilled in building responsive, scalable web applications that blend functionality with clean, modern interfaces. Proficient in **React.js, JavaScript, HTML, and CSS**, with experience in integrating REST APIs and backend systems using Flask and FastAPI. Combines technical depth with a creative eye for **UI design, accessibility, and performance optimization**, delivering products that are intuitive, fast, and visually engaging. Known for agile teamwork, rapid prototyping, and writing maintainable, production-quality code.

EDUCATION

MSc in Artificial Intelligence and Machine Learning 2023 – 2025 | Bangalore, Karnataka
Christ(Deemed to be University) [🔗](#)

Bachelor in Computer Applications 2020 – 2023 | Rajkot, Gujarat
Christ College [🔗](#)

PROFESSIONAL EXPERIENCE

Full-Stack Developer 01/2025 – Present
SenseSys Pvt. Ltd.

- Developed and maintained the **React-based frontend** for *Hosting Cloudly*, a web platform enabling cloud deployment through an intuitive UI.
- Designed and implemented **responsive layouts, dashboards, and form components** using React, CSS modules, and Tailwind CSS.
- Collaborated with backend developers to **integrate REST APIs** for user authentication, deployment status, and log visualization.
- Improved UI load performance by **30%** through lazy loading, component optimization, and asset compression.
- Worked in an **8-member agile team**, participating in sprint planning, version control (Git), and code reviews.

SKILLS

Frontend & Web Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design, UI/UX Implementation, State Management (Hooks, Context API)
Version Control & Collaboration: Git, GitHub, Agile Development, Code Reviews, Figma-to-React Integration
APIs & Backend Integration: REST APIs, Supabase, Flask (basic), FastAPI (basic), JSON Handling, Authentication & Routing
Databases & Tools: Supabase, MySQL, SQLite, Postman, Render (for deployments)
Design & Prototyping: Figma, Canva, Adobe Express, Notion — wireframing, visual consistency, and component design
Other Technical Exposure (Basic): Python scripting, Flask server setup, scikit-learn, NumPy, Pandas, Power BI, Tableau

PROJECTS

HospSurv 09/2025 – Present
React.js • JavaScript • CSS • Supabase

- Developed a **React-based hospital feedback system** that enables patients to submit surveys and **redeem reward coupons** for participation.
- Implemented **interactive form components, rating sliders, and admin survey dashboards** for real-time response tracking.
- Integrated **Supabase** for backend data storage, authentication, and coupon management APIs.
- Designed a **modern, responsive UI** using custom CSS and Tailwind to ensure cross-device compatibility.
- Improved user engagement and feedback response rates through **gamified survey flows** and smooth frontend interactions.

Hosting Cloudly

07/2025 – Present

React • Supabase • FastAPI • Docker

- Built the **frontend dashboard** for cloud model management — with modules for uploads, deployment tracking, and performance metrics.
- Designed **interactive data cards and grid layouts** for scheduling and monitoring workflows.
- Integrated Supabase APIs for user authentication and slot data management.

ZeroCodeML (Frontend Revamp)

01/2025 – 03/2025

React • Flask • JavaScript

- Redesigned the platform interface for a **no-code ML tool**, focusing on responsive layouts and improved navigation.
- Built modular React components for model setup, data upload, and progress tracking.

SpamShield

10/2024 – 12/2024

HTML • CSS • Streamlit

- Developed a **minimal, responsive web UI** for visualizing classified emails and message summaries.
- Customized front-end styling for accessibility and mobile-first responsiveness.

CERTIFICATES

CERTIFICATES — Deloitte : Data Analytics Job Simulation | Introduction to LLM | Data Engineering

Getting Started | Machine learning with Python | Prompt Engineering for generative AI | Natural Language

Processing | Ethical AI | Creating GPTs with Actions | Introduction to Power BI | AWS cloud foundation

PUBLICATIONS

“Enhancing Satellite Imagery with GAN-based Cloud Removal” – IEEE (July 2025)

Published in *IEEE Xplore* | DOI: 10.1109/ICECCC60120.2025.11063844 [↗](#)

Presented at ICECCC 2025, CMR Institute of Technology, Bengaluru

Peer-reviewed and published by IEEE, this paper proposes a deep learning approach using **Generative Adversarial Networks (GANs)** to enhance satellite imagery by effectively removing cloud obstructions.

- Engineered a GAN architecture that improved spatial accuracy and clarity by **~40%** over baseline models
- Utilized **tensor-level optimizations** and GPU-based training to accelerate convergence and image reconstruction
- Benchmarked across EuroSat datasets; contributed to Earth observation preprocessing for geospatial analytics

LEADERSHIP & CONTRIBUTOR EXPERIENCE

- **Project Lead – Hosting Cloudly & ZeroCodeML** Leading an 8-member team at SenseSys to develop an AI hosting platform; and guided a 3-member team at Christ University to build a no-code ML tool.
- **Volunteer – ICSAC 2024** Committee member at International Conference on Sustainable Advanced Computing.
- **Media Head – Gateways 2023** Directed a 30-member team handling **branding, content strategy, and social media production** for a national tech fest. Produced 50+ event visuals and reels, increasing digital reach by **80%** through consistent creative campaigns.
- **Student Coordinator – TechArena** Handled digital strategy & scheduling for Christ College's National IT Tech Fest.
- **Infographics Lead – GDSC** Created visuals and event designs, boosting reach.
- **Workshop Facilitator – Canva & Storytelling** Conducted workshops for 100+ students, including a **2-day national session at Illuminaire**, on **brand identity, design thinking, and visual storytelling** using **Canva, AI, and modern media tools**; guided participants in building **digital portfolios**.
- **Outstanding Student Award– Christ College (CS Dept.)** Recognized for excellence in academics, leadership, and contribution.
- **Social Media & Branding Lead – University Clubs** Oversaw **Instagram + LinkedIn presence** for tech societies; developed content calendars, optimized posting cadence, and maintained consistent visual identity — boosting engagement by **70%**.
- **Social Media & Branding Lead** Managed digital identity & engagement for campus teams.
